;

The Catalina 400 yacht has an innovative deck design. Under sail offers the two steering wheels a perfect position for the captain. The Catalina 400 is known for the solid engine, high quality of control and mechanical systems, rated interior trim and detailing on the deck. The owners cabin is extremely large and luxury. The Catalina 400 has been carefully designed with fibreglass and strong structural connections. This version is well maintained and ready to go. By the shallow draft you have a wide choice of sail areas. By the solid construction this Catalina is also ideally suited for lange (sea)journeys.
