Dehler 36 CWS (1991)

Property: 44.506.2181

EYN Price: € 0

Length: 11,00 m; Width: 3,50 m; Draft: 1,85 m; Headroom: 1,90 m; Engine brand: Yanmar 3GM30; Total engine power: 27 hp; Engine hours: 800 hour; Number of engines: 1 ; - : Shipyard ;

The Dehler 36 CWS is a fast cruiser-racer designed specifically to be manageable by a small crew. The CWS designation stands for "central winch system", having sheets, halliards and reefing lines led back to a powerful single electric winch in the centre of the cockpit. The system looks complex but works well. The Dehler 36 CWS was designed by Van de Stadt, the boat is aimed at providing high performance with relative ease of handling. She has a fairly big rig, but with a self-tacking headsail and powerful electric winch she can be managed with a small crew.

'Yachting Monthly' describe the design as "...exceptionally well engineered and put together". For more information or to make an appointment for a visit, please contact: Paul Rimmelzwaan 0031 6-57332267 p.rimmelzwaan@e-y-n.com
