This particular Endurance 38 One Off, designed by Peter Ibold and built by Klaas Bood, is very suitable for the heavy seas. The with aramid-fiber reinforced hull is sufficiently strong to withstand a collision with a sea container.

By the perfect hull shape and low weight this yacht sails exceptionally fast. The technique is deliberately kept simple, this makes it easy to make a long sea voyage. In the choice of equipment is taken into account solidity and reliability. The sails are young and in excellent condition. The maintenance is to this day, well-done. This boat comes with the full equipment. For more information or to make an appointment for a viewing, please contact: Paul Rimmelzwaan 0031 (0)6 57332267 p.rimmelzwaan@e-y-n.com
