The H-Boat is an internationally recognized unit class and is excellent for the driven competitive sailor. He or she can make at both national and international levels. But thanks to the "easy sailing" character the starting sailor will also have a lot of fun. In 2011, this "H" undergone a complete refit including new traps and rigging. After that the boat is little used. In addition to using the outboard (petrol) engine there are preparations for using an electrical engine (24V). Completely and well maintained boat!
