Pershing 5X (2018)

Property: 43.811.2652

EYN Price: **€ 1.199.000**

Length: 16,51 m; Width: 4,38 m; Draft: 1,35 m; Headroom: 0,00 m; Engine brand: Volvo Penta IPS 950; Total engine power: 1.450 hp; Engine hours: Unknown; Number of engines: 2 ; Trade: Negotiable ; Rent (to buy): Not possible ; Private Financing: Possible ;

Unique opportunity, from first owner, Pershing 5X with IPS Engines, year 2018. Harbour: St. Tropez, France. Boat is under warranty till 2020. The Pershing 5X is the result of the collaboration between the Product Strategy Committee, Ferretti Group's Engineering Department and architect Fulvio De Simoni. This bold coupé was designed to stir up emotions in over 80 countries where the brand is distributed. 16.51 metres (54.2') long with a full beam of 4.38 metres (14.4'), it has an original hydraulically-operated platform at the stern that can be lowered more than 50 cm below the water surface, becoming a convenient submerged area for guests and the crew. By fitting a safety rail supporting a net or technical canvas, the entire area becomes a salt-water swimming pool where younger guests can play safely in the water. The garage can house a 2.8 metre Williams tender that slips easily into the water when the swimming platform is submerged. The cockpit is protected laterally by the two aerodynamic fins, the hallmark of latest generation Pershings, and has a large sun pad plus dinette. It can be separate or linked up to the interior saloon with the new system to open and close the glass door and windows. This solution is ideal for making full use of the yacht in all weathers, also thanks to the possibility to fit air conditioning on board as well

EUROPEAN YACHTING NETWORK

as a new interior heating system with low impact on the environment. The main deck is divided up into a lounge with a dining table, starboard bridge and a second forward lounge. The front area of the ceiling is a sliding glass roof. On request, an extra fixed section, again in glass, can be added for maximum natural light. The lower deck was designed around the full beam master suite and its ensuite head. The traditional version also has a forward VIP cabin and a dinette opposite the galley. Alternatively, the layout can have a third guest cabin with bunk beds in place of the dinette, or a crew cabin with its own access from the deckhouse to safe the guests' privacy. There are two engine configurations that result in different engine room layouts.
