The IMX-38 is a wonderful, sexy-looking boat with sweeping lines and the promise of plenty of boat speed. A modern racer that can easily accommodate extended cruising. You wouldn't expect luxurious accommodations from this type of boat. The layout is straightforward with a small galley forward and a large head that stretches across the boat. The photos show this interior to be beautifully detailed and artfully styled. It may not be plush, but it is surprising comfy. A modern lined yacht with not only performance properties but that certainly also offers the comfort of a cruiser. A large part of the extensive sail wardrobe is of Quantum Sails and in good condition. The sophisticated autopilot works meticulously and has the latest stir rash not adversely affected. You are welcome to visit this fast ship with exceptional properties.
